Objectives

Through a series of conferences led by professionals, this course aims to provide a better knowledge of systems, applications, methods, and professions of IT in companies, whose realities are often very different and much richer than the vision that may have students.

Keywords : Business IT, information systems, IT trades.

Programme	Here are some conferences that have taken place in previous years: "e-payment services", Cédric Lamarzelle, Atos Worldline "Service-oriented architecture", Matthieu Girardin, CGI "Information technology and freedoms", Correspondent for information technology and freedoms, Centrale Lyon "HPC and Big Data virtualization", Jean-Daniel Bonnetot, OVH, "Open-Source jobs", Valentin Clavreul, Smile "Application Outsourcing", Philippe Ihuel, Sopra Group
Learning outcomes	• Understand the complexity and diversity of IT in business. • Have an idea of the various IT professions in business.
Independent study	Objectifs : Méhodes :
Core texts	
Assessment	MCQ covering all the conferences, based on questions submitted by each of the speakers.
